

Ankara University

The Graduate School of Health Sciences

Thesis of Department of Interdisciplinary Forensic Sciences

1. Thesis of Forensic Chemistry and Forensic Toxicology Doctoral Programme

Pelin KILIÇ, 2015, Plasma concentrations of chronic myeloid leukemia patients receiving imatinib. Prof. Dr. Günhan GÜRMAN

Dilek AKYÜZLÜ, 2014, Effect of Single Nucleotide Polymorphisms on Genes Encoding GSTP1, MRP1 and MRP2 Proteins on Blood, Urine and Hair Arsenic Levels of Individuals Exposed to Metals, Doç. Dr. Zeliha KAYAALTI

Eda EMER, 2014, The Assessment of The Impact of Testosterone and Dehydroepiandrosterone on Heart Tissue And Oxidative Stress Parameters in Rat, Prof. Dr. Ahmet SAYAL

Nesrin İÇLİ, 2014, Determination of Polycyclic Aromatic Hydrocarbons metabolites in urine of occupationally exposed individuals, Doç. Dr. Zeliha KAYAALTI

Seda KAYA, 2014, Mercury Levels in Maternal Biological Materials, Placenta and Cord Blood, Doç. Dr. Zeliha KAYAALTI

Esmâ SÖYLEMEZ, 2014, The Association of Lymphocytes Dna Damage with XRCC1 and XRCC3 Gene Polymorphisms in Individuals Exposed to Arsenic, Doç. Dr. Zeliha KAYAALTI

Emrah DURAL, 2014, Determination of Sildenafil Levels in Pulmonary Arterial Hypertension Patients' Plasma, by Chromatographic Method and Investigation of Illegal Assets in "Plant Origin" Products, Prof. Dr. Gülseren KARABIYIKOĞLU

Bayram YÜKSEL, 2013, Determination of Arsenic Levels in Biological Samples of Occupationally Exposed Workers, Doç. Dr. Zeliha KAYAALTI

Nilgün ŞEN, 2013, The Investigation of Organic Explosive Materials Including azide Group With Thermal Analyses Methods and the Possibility of Analyses Using Gas Chromatography-Thermal Energy Analyser (GC-TEA), Gas Chromatography Mass Spectrometry (GC-MS), Prof. Dr. Orhan ATAKOL

İlknur YAVUZ, 2013, DNA Damage evaluation using comet assay in workers occupationally exposed to lead, Prof. Dr. Tülin SÖYLEMEZOĞLU

Deniz TEKİN, 2013, The Effect of Metallothionein Polymorphism on Metal Levels in Maternal Biological Samples and Development of Newborn. Prof. Dr. Tülin SÖYLEMEZOĞLU

Ayşegül BACAKSIZ, 2012, The association of lymphocytes dna damage with xrcc1 and xrcc3 gene polymorphisms in workers exposed to organic solvents, Prof. Dr. Gülin GÜVENDİK, Doç. Dr. Zeliha KAYAALTI

İsmail Hakkı AKINCI, 2012, Toxic metal and essential element levels in blood obtained from volunteer blood donors, Prof. Dr. Tülin SÖYLEMEZOĞLU

Miyase ODABAŞI, 2011, Effect of divalent metal transporter gene polymorphism on lead and iron levels in individuals exposed to metals, Prof. Dr. İsmail KURT

Vügar ALİYEV, 2011, Determination of arsenic levels of placental and maternal biological samples and effect of glutathione s transferase polymorphism on arsenic levels, Doç. Dr. Birsen KAPLAN

Engin TUTKUN, 2011, Evaluation of biochemical and complete blood count parameters in workers exposed to organic solvents, Prof. Dr. Tülin SÖYLEMEZOĞLU

Seda ZENGİN SUNAY, 2010, Investigation of the paraoxonase polymorphism and paraoxonase enzyme activity on the individuals who are exposed to pesticides, Prof. Dr. Halil GÜMÜŞ

Serap YALÇIN, 2010, Effect of IL-6 polymorphism on tissue metal levels, Prof. Dr. Tülin SÖYLEMEZOĞLU

Alper CAN, 2010, The determination of toxicities of sulphonilurea and phenylurea herbicides with quantitative structure-toxicity relationship studies, Prof. Dr. Gülin GÜVENDİK

Fatma CAN, 2009, Blood toxic metal levels of patients with atherosclerotic cardiovascular diseases, Prof. Dr. Halil GÜMÜŞ

Özgür ÖZTAN, 2009, Placental toxic metals and trace elements levels, Prof. Dr. Gülay KURTAY

Volkan ERCAN, 2009, Determination of trace-essential elements and toxic metal levels in alcoholics, Prof. Dr. Yıldırım B. DOĞAN

Görkem MERGEN, 2008, Determination of trace element and toxic metal levels in bone tissue samples of autopsy cases and investigation of its relation between metallothionein gene polymorphisms, Prof. Dr. Tülin SÖYLEMEZOĞLU

Ayça DOĞAN, 2008, Effects of hemodialysis on blood lead, cadmium, zinc and copper in

chronic renal failure, Prof. Dr. Tülin SÖYLEMEZOĞLU

Hınç YILMAZ, 2008, Trace element and toxic metal levels in autopsy kidney tissues Doç. Dr. Bülent YALÇIN

Servet Birgin İRİTAŞ, 2008, Determination of cadmium, lead, copper and zinc levels in autopsy liver tissue, Prof. Dr. Mevlüt ERTAN

Aybike DİP, 2008, Trace element and toxic metal levels in heart tissue samples of autopsy cases, Prof. Dr. Tülin SÖYLEMEZOĞLU

Sevda (SAİN) DÜLGER, 2008, Analysi of illicit drugs which includes amphetamine derivatives with chromatographic and spectroscopic methods, Prof. Dr. Gülin GÜVENDİK

Zeliha KAYAALTI, 2007, Effect of metallothionein promoter region polymorphism on toxic metal and trace element levels, Prof. Dr. Tülin SÖYLEMEZOĞLU

Şebnem Şefika ÇEÇEN, 2006, Validation of alcohol determination method and polymorphisms of alcohol metabolizing enzymes in our population, Prof. Dr. Tülin SÖYLEMEZOĞLU

Elife ÇOPUR, 2006, Determination of some metals in poppy capsules by atomic absorption spectrophotometer and importance as a means for origin, Prof. Dr. Tülin SÖYLEMEZOĞLU

Selçuk YAKIŞTIRAN, 2004, The detection of some drugs in acute poisoning, Prof. Dr. Tülin SÖYLEMEZOĞLU

Mustafa DÖNMEZ, 2004, A new computer assisted method on document examinations, Prof. Dr. Nevin VURAL

Nuri İDİZ, 2003, The evaluation of sialik acid in alcohol abuse, Prof. Dr. Gülin GÜVENDİK

Gülhan CENGİZ, 2003, The role of free radicals in cocaine-induced toxicity and toxicological analysis of cocaine, Prof. Dr. Tülin SÖYLEMEZOĞLU

Banuççek YÜCESAN, 2002, Screening of abused drugs in traffic accidents and trauma victims, Prof. Dr. Tülin SÖYLEMEZOĞLU

Rukiye DOĞANYİĞİT, 1999, Biological and environmentally monitoring of metabolities in urine samples as indicators of occupational exposure to aromatic hydrocarbons, Prof. Dr. Nevin VURAL

Meral YENİOVA 1999, Biological and environmental monitorig of polychlorinatedbiphenyls, Prof. Dr. Nevin VURAL

2. Thesis of Forensic Chemistry and Forensic Toxicology Master Programmme

Fezile ÖZDEMİR, 2015, Effect of Glut1 Gene Polymorphism on Urine Arsenic Levels of Individuals Occupationally Exposed to Arsenic, Doç. Dr. Zeliha KAYALTI

Sinem IŞIK, 2014, Effect of maternal HFE H63 D Gene Polymorphism on placental lead level, Doç. Dr. Zeliha KAYAALTI

Derya DOĞAN, 2014, Effect of P-glycoprotein gene polymorphism on placental arsenic level. Doç. Dr. Zeliha KAYALTI

Selda SERT, 2013, The Effect of Delta Aminolevulinic Acid Dehydratase Polymorphisms on the Lead Levels of Maternal Blood, Plasenta and Cord Blood, Doç. Dr. Zeliha KAYAALTI

Burçin KOÇ, 2012, Determination of some phthalate levels in the biological fluid samples, Zeliha KAYAALTI

Halim TOPAL, 2012, Catalogue the illicit tablets consisting 3,4-methylenedioxymethamphetamine (MDMA) by using their chemical and physical properties, Yrd. Doç. Dr. Zeliha KAYAALTI

Murat BOZALAN, 2011, Determination of lead levels in toys by atomic absorption spectrometry, Prof. Dr. Gülin GÜVENDİK

Esmâ SÖYLEMEZ, 2011, Determination of blood cadmium levels and lymphocyte DNA damage in smokers, Prof. Dr. Halil GÜMÜŞ
